BAVARIAN SEEDERS (patented)

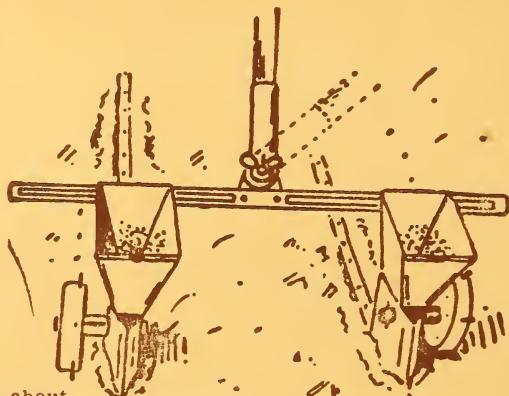

For Greenhouse and Hotbeds

Small, very handy seeders, practical to use in Greenhouses and in Frames where a large machine cannot be used. Will plant almost any variety of seeds except very large seeds, such as Corn, Beans and large seeded Peas. Can be used for Sweet Peas and Beets if the extra Arbor is used. A small brush regulates the feed.

No. 1. One rowed Seeder holds about 4 ozs. of Radish Seeds. Handle can be moved in any direction. Price, \$4.00.

No. 1A. Extra Arbor for very small and very large seeds. Price, \$0.40.

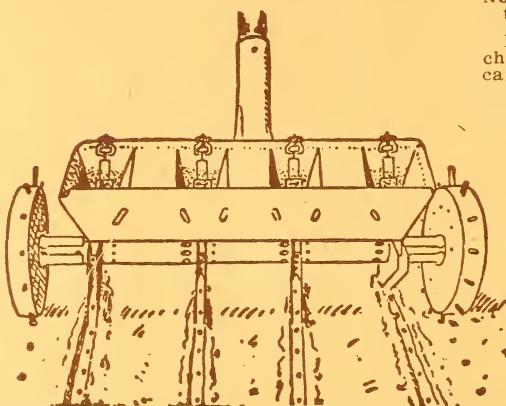

No. 2. Two rowed Seeder, each compartment same size as on No. 1. Price, \$8.00.

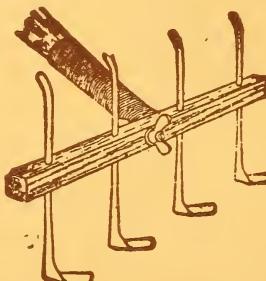

No. 2A. Extra Seed Compartment to attach, one wheel. Each, \$3.50.

No. 2B. Extra Seed Compartment with two wheels. Each, \$3.75.

By adding these extras to the machine a three, four, or five rowed Seeder can be had.

No. 4. Four rowed machine to plant four rows of seeds $2\frac{1}{4}$ inches apart. The cylinder is made with 3 sets of holes. Price, \$8.00.

Pricking Rake, to be used in connection with No. 4, as the space between the teeth is the same as on the seeder. One end of the Rake can be used for loosening the soil between the rows, and the other end can be used as a cultivator or can be inserted in the ground and pulled underneath the plants, cutting all the long tape roots over, instead of transplanting. Price, \$1.00.

We do not furnish the wooden handles for any of these machines.

Danish Seed Import SEED ANNUAL *for 1929*

IN presenting this, our fifteenth annual Seed List, we wish to express our thanks to all our customers for the confidence and patronage we have received, and we trust you will continue to send your orders this way. We aim to have only the very best and most reliable seeds which it is possible to get, and we import a large part of our seeds from the best growers in Denmark and other European countries. We realize that a Gardener or Florist cannot be too careful in the selection of the seeds he is using and therefore we are very cautious in getting the seeds from the best sources we know of.

We do not treat any seeds unless asked for as such seeds are not allowed to be sent by parcel post, but we recommend the buying of either Semesan or Uspulun and treat the seeds on your own premises before seeding.

Any orders you may send us will receive our most careful attention.

Respectfully yours,
DANISH SEED IMPORT,

Chris Mosberg.

TERMS

All prices subject to changes and to being unsold.

On larger orders kindly ask for special quotations.

Delivery charges will be paid by us for all seeds except Peas, Beans, Corn and Field seeds.

We give no warranty, express or implied, as to description, quality, productiveness, or any other matter connected with the goods we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned. Examine seeds closely, test if desired, and if anything is wrong, the seed will be replaced or money refunded.

USPULUN—FOR DAMPING OFF

USPULUN dissolved according to directions is a sure preventative of damping-off of seedlings and cuttings. It also stops the fungi from spreading among the seedlings if the soil is sprinkled with solution as soon as the disease shows. It may be used as a soak treatment in the control of seed corn diseases. Descriptive pamphlets mailed for the asking.
